UEI - WVEVFB4888S4 | CAGE Code - 9J8F3

Provecta Tech Inc (Provecta) is an SBA approved Mentor-Protégé Joint Venture (JV) between protégé and managing partner Ekin Solutions Inc. and mentor Softrams LLC. Provecta Tech is able to utilize all of the past performance and capabilities from both the Protégé and Mentor.

Provecta Tech is redefining the digital landscape of federal IT space with accelerated and modern solutions providing cloud-native, vendor-agnostic solutions for modernizing legacy environments and building innovative and flexible solutions for federal government clients. We are committed to help, create and sustain cost effective high quality solutions in alignment with the NIST secure software development methodologies and digital first approach all while being long term mission focused and human centered.

JOINT VENTURE MEMBERS

◎ ekin solutions : UEI - EATLJWKP3RE4 | CAGE Code - 7V4K9

SOFTRAMS : UEI - P4X8JNU7TMQ7 | CAGE Code - 79TZ3

JOINT VENTURE CONTRACT

GSA Contract Number: GS35F372DA
(SINs: 54151S, 541611 & 518210C)

CAPABILITIES

Human-Centered Design (HCD)
- User Experience, Customer Experience & Human Experience

Artificial Intelligence (AI)
- Machine Learning (ML)
- Robotic Process Automation (RPA)

Cloud Services
- Infrastructure as a service (IaaS)
- Platform as a service (PaaS)
- Software as a service (SaaS)
- Serverless computing

Cyber Security

Customer Support
- Tier 1, Tier 2 & Tier 3 Helpdesk operations

Data Services
- Data Modeling
- Data Analytics
- Big Data
- Data Visualizations

Salesforce
- Multi-Tentant Architecture
- API Ecosystem
- Low-Code Solutions
- Out of box User Interface
- In-built AI and real-time Analytics
- Data Security and Compliance
- Mobile Ready
- App Market Place

Application Development
- Application transformation
- Legacy modernization
- API first micro service architecture

JV MEMBERS' CONTRACT VEHICLES

- 8 (a) STARS III
- GSA MAS
- GSA COMET
- SPARC
- CIO-SP3 SB

SMALL BUSINESS CERTIFICATION

SBA U.S. Small Business Administration 8(a) Certified

SBA Certified Small Disadvantaged Business

CASE STUDIES

CMS - Health Plan Management System (HPMS)

AWS cloud migration and 60% Modernized with API first methodology; Mission critical high policy impact system for Medicare MA (Part C) and PD (Part D); MFA implementation and API key management functionalities and full-service helpdesk services; 100% ATO on first attempt; Zero Trust Architecture; Implemented an agile delivery model, DevSecOps, and CI/CD with 100% regression automation. Processing Transaction volume more than 1.2 billion every week. Exceptional CPARS.

USCIS - Outcome-based delivery and DevOps service (ODOS III)

Provide continuous DevOps support for the Electronic Immigration System (ELIS) utilizing industry wide best practices that deliver mission value and cost-effectiveness; Utilize Continuous Integration/Continuous Deployment (CI/CD) for continuous delivery and a combination of Java spring monolith and microservices based architecture in AWS cloud that is scalable & highly available; Very Good CPARS

CMS - Innovative Design, Development, and Operations Contract (IDDOC)

Built serverless cloud-based enrollment system for direct contracting models(4i- 4 Innovation) using SAFe methodology and Human centered design facilitated joint application design ; Transformation complex programming rewritten using python resulting in more than 76%-time reduction; 100% ATO on first attempt ; Very Good CPARS. Streamlined model onboarding process. 7 model Onboarded.

NIH - Sharepoint Migration services

Migration of critical applications from Sharepoint On-Premises to SharePoint Online for NIH Business Systems. Robust technical support, emphasizing intuitive design, stringent security measures, and seamless data integration with other Microsoft 365 applications and external systems. Enhanced workflows by implementing automated processes using Power Automate flows and PowerShell scripts. Re-engineered workflows to optimize performance and reduce failure rates through automated monitoring and proactive alerting. Very Good CPARS.

GSA - Advanced Fleet Platform (AFP)

Modernization and migration of legacy mainframe applications to the cloud were central to the AFP initiative. Employing Infrastructure as Code, Kubernetes for container orchestration, JavaScript for full-stack development, and DevSecOps for deployment, we ensured the agility and scalability of our cloud-native applications. Made significant progress in consolidating 19 legacy systems into a single AFP. Successfully retired six advanced legacy systems, a 32% completion in the consolidation process. Exceptional CPARS.

> **"** *Softrams is an excellent and committed partner, and will work hard to develop a quality product for their customer. They continue to find innovative ways to meet the expanding needs of the Medicare Advantage and Prescription Drug Programs.*
